

Sarkarverse wikipedia

Sarkarverse wikipedia has been a proactive response to the limitation of Wikipedia where Ananda Marga and its founder Shrii Prabhat Rainjan Sarkar could not be presented in its full breath.

The latest initiative of Sarkarverse is the publication of the first 500 Prabhat Samgiita with the English translation of Acarya Abhidevananda Avadhuta.

The wikipedia is online at sarkarverse.org and currently there are 940 articles and 7,330 pages.
